

# BETTER STEAMING, BETTER RESULTS

# Compact and versatile, the Undercounter Steamer is the ideal addition to any operation looking to improve efficiency serving high volumes of hot and fresh menu items to customers.

The Undercounter Steamer's flash steaming process instantly turns tap water into steam. It quickly and efficiently heats buns, tortillas, vegetables, and other menu items in seconds.

The Undercounter Steamer has a small footprint so operations can move steaming underneath the prep table, allowing users to save space while easily loading and removing product. The steamer's low-profile design ensures seamless integration into kitchens of all configurations.

Ergonomic and easy-to-use, the UCS features four pre-programmed settings allowing operators to toggle between desired settings and two additional custom settings for menu growth.

The Undercounter Steamer ensures seamless integration into kitchens of all configurations

#### **Easy Operation** Four pre-programmed settings: Filet-O-Fish, Best Burger Bun, Tortilla, Rice Patty

Low Profile Fits under prep table for additional kitchen capacity
