

THE VERSATILE POWER OF STEAM

The Antunes Deluxe Food Warmer converts tap water into steam to quickly heat and serve sandwiches - keeping their original textures, flavors and nutrients. The end result: food that looks fresher and tastes better.

The Deluxe Food Warmer instantly creates steam with the simple push of a button. Producing a consistent amount of steam, the Deluxe Food Warmer removes the guesswork, delivering a uniform finished product from one operator the next.

Deluxe Food Warmer DFW-150

Fully Programmable

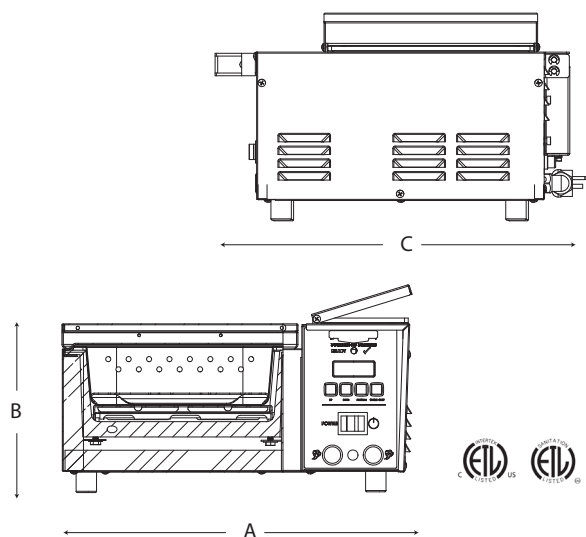

Easily adjust the time, number of steam shots, and amount of steam to ensure the best results.

Easy Installation

This compact design is available with a direct water hook-up or self-contained water reservoir for flexibility in installation.

Deluxe Food Warmer | DFW

Features:

- Open compartment delivers steam from all sides
- Instantly turns plain tap water into steam
- 0-99 minute timed steam cooking with instant warming button
- Fully adjustable pulse of steam
- Available with a self-contained water reservoir or direct water hookup

NOTE: Units with a direct water hookup require a water pressure regulator. The psi should be between 20 and 30 psi (1.4 - 2.06 bar)
