

High Capacity Water Equipment

Iron Filter System

- Reduces dissolved and undissolved iron
- Prevents stains, discoloration and poor taste
- Ideal application for stores in remote areas with well water and iron issues

Water Softener System

- Ideal for the entire store
- Scale reduction – Water Softeners reduce total water hardness and helps protect your equipment

Reverse Osmosis System

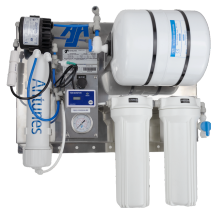

- High-quality water for entire beverage line
- High-capacity – 2,500 gallons of water per day
- Removes over 90% of the contaminants in the incoming water supply

VZN Ultrafiltration System

- Superior filtration for your entire beverage line
- Finer filtration that removes sediment, cysts and particles as small as 0.015 microns
- 500,000 gallon capacity carbon cartridge – Reduces landfill waste 1:8 compared to competitive units
- Self-cleaning ultrafilter lasts up to 10 years

Low Capacity Water Equipment

Reverse Osmosis - 100 System

- Ideal for use with Flash Steamers - Protect your equipment

Reverse Osmosis - 600 System

- Ideal for use with for Combi Ovens - Protect your equipment

Scale Reduction System

- Ideal for use with Ice Machines
- NSF approved drinking water additive
- Controls mineral scale build up & helps protect the environment
- Formulated to work in high-temperature, high-hardness environments

Point of Use Water Softener

- Ideal for use with the IS-8000 or IS-1000
- Scale reduction – Water Softeners reduce total water hardness and helps protect your equipment
