

# GOLDEN BROWN FINISH

**The Vertical Contact Toaster VCT-2000 is a staple in the foodservice operations with a reputation for quality, performance and reliability around the world.**

The Vertical Contact Toaster gives buns a consistent, golden brown finish which helps the sandwich stay firm and delicious. Additional products for the unit include a wide mouth bun feeder, motorized butter wheel, heated base, and back plate. The VCT-2000 features a digital controller for making precise adjustments to the quality of the toast for different bread products.

VCT-2000 Vertical Contact Toaster

#### Dual-Sided Platen

Vertical Contact Toaster has more capacity than conventional single-sided toasters, allowing operators to quickly serve fresh products

#### Minimal Bun Marking

Forget burnt buns. Our belt wraps minimize marking of the buns for perfect a golden finish.

#### Small Footprint

The upright design saves valuable counter space, allowing it to easily integrate into any operation

# Vertical Contact Toaster | VCT-2000

## Features:

- Auxiliary heater warms top side of buns
- Space-saving vertical design
- Continuously moving conveyor for immediate toasting
- Separate compression adjustments for the heel and the crown
- Release sheets allow buns to move easily down the heated platen without sticking or slipping
- Easy to operate and clean
- Stainless steel construction
- Available toasting times range from 10 to 28 seconds
- Additional products available: wide mouth bun feeder, butter wheel and heated base

## Vertical Contact Toaster Accessories

Item	Mfg. No.	Description	For Use With
Butter Wheel	7000703	Stainless steel butter wheel and pan. Use to butter buns before toasting. Attaches to the top of the toaster without the use of tools and can be removed easily for cleaning.	VCT-25, 50, 1000 & 2000
Universal Tall Bun Feeder	7001522	Automatic gravity-fed bun feeder for pre-loading buns into a toaster, which increases productivity by allowing operator to complete other duties. Attaches to the top of the toaster without the use of tools and adjustable to fit most bun sizes.	VCT-25, 50, 1000 & 2000
Universal Tall Angled Bun Feeder	7001523	Angled, automatic gravity-fed bun feeder for pre-loading buns into a toaster, which increases productivity by allowing operator to complete other duties. Attaches to the top of the toaster without the use of tools and adjustable to fit most bun sizes.	VCT-25, 50, 1000 & 2000
Low Profile Universal Bun Feeder	7001521	Low profile bun feeder allows for quick and easy loading of buns into the toaster. Attaches to the top of the toaster without the use of tools.	VCT-25, 50, 1000 & 2000
Cleaning Tool Kit	7001126	Aluminum handle with attachable cleaning pad for cleaning platens of contact toasters	All VCT models
HLZ-1 Heated Landing Zone	7000685	Heated landing zone keeps freshly toasted buns warm until they are ready to serve. Attaches easily to the bottom of the toaster without the use of tools. (120 volts, 35 Watts, 0.3 Amp., 50/60 Hz. NEMA 5-15P Plug)	VCT-25, 50, 1000 & 2000
HLZ-1 Heated Landing Zone	7000842	Heated landing zone keeps freshly toasted buns warm until they are ready to serve. Attaches easily to the bottom of the toaster without the use of tools. (230 volts, 35 Watts, 0.3 Amp., 50/60 Hz. CEE 7/7 Plug)	VCT-25, 50, 1000 & 2000
Damper Kit	7000574	Covers keep heat contained in the toaster to save energy. When used, toasters consume half as much energy in the idle state, use 22% less energy when cooking, and give off half as much average heat gain to space.	VCT-25, 50, 1000 & 2000
