

Vertical Contact Toaster | VCTM-3N1

PERFECTLY TOASTED BUNS

The VCTM-3N1 delivers consistent bun toasting for a perfect golden-brown finish that helps burgers taste better, look better, and feel hotter when in the hands of the customers.

With a compact design, the VCTM-3N1 is a perfect fit for any operation where high-quality bun toasting is the objective.

The VCTM-3N1 independently toasts each half of the sandwich bun on one side while simultaneously toasting sliced bread on the other to create a truly unique operational advantage.

On-demand Results

Forget batch toasting – Toast buns as needed and serve sandwiches fresh without any delay

Adjustable Quality

Compression settings and platen temperatures are easily adjustable

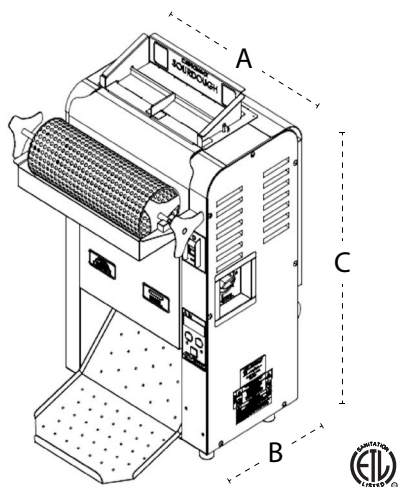

Small Footprint

Compact vertical design saves valuable counterspace
